---

## Career Objective

To build impactful, user-focused web platforms that empower people and businesses globally.

## Bio

I'm Marlon, a caffeine-fueled code ninja turning wild ideas into sleek, SEO-powered websites since 2018.

## Skills

Web Development, SEO Optimization, WordPress Management, UI/UX Design, PHP, HTML, CSS, JavaScript, Cloud Integration

## Languages

English and Cebuano

## Work Experience

I've been working at MarlonOmandam.com as a freelance web developer and SEO specialist since 2018.

## Notable Projects

CertifyRights.com - A platform that certifies digital content and protects creator rights using view tracking and metadata. PayQR.link - A universal payment QR code service allowing users to share all their payment details with a single smart link. MyAIClone.io - An AI-driven chatbot that builds personalized resumes and reflections through layered conversations. FrAIInstor.com - A futuristic social media platform with AI theme customization, avatar generation, and real-time features. BibleVerseFinder.org - A Christian tool that helps

users find verses based on emotion, theme, or life situation.

## Education

BSIT graduate at UCLM

## Achievements

Built and ranked over 50 websites on Google, developed viral tools like AIWebsites.org and PayQR.link, and helped clients increase traffic by 300%+ through SEO magic.
